FOR IMMEDIATE RELEASE

The Honorable Andrew Weber Joins C2Sense Board of Directors

Watertown, Mass., March 8, 2023 – C2Sense, Inc., today announced the appointment of the Honorable Andrew Weber to its Board of Directors effective January 31, 2023.

"We are extremely pleased to welcome Andrew to our Board of Directors," said Jason Cox, Ph.D., CEO of C2Sense. " Andrew's service to our Nation combined with his track record of delivering results in both the public and private sectors will bring a valuable perspective to C2Sense."

Mr. Weber's thirty years of US government service included five-and-a-half years as Assistant Secretary of Defense under the Obama Administration, Chemical and Biological Defense Programs. He was a driving force behind Nunn-Lugar Cooperative Threat Reduction efforts to remove weapons-grade uranium from Kazakhstan and Georgia and nuclear-capable MiG-29 aircraft from Moldova, to reduce biological weapons threats, and to destroy Libyan and Syrian chemical weapons stockpiles. In addition, Mr. Weber coordinated US leadership of the international Ebola response for the Department of State until his retirement from Federal Service in 2015.

Prior to joining the Pentagon as Advisor for Threat Reduction Policy in December 1996, Mr. Weber was posted abroad as a US Foreign Service Officer in Saudi Arabia, Germany, Kazakhstan, and Hong Kong. Mr. Weber is currently a Strategic Advisor for Ginkgo BioWorks and consultant for DARPA, Lawrence Livermore National Laboratory and others.

About Halo
Halo provides low-cost, lab-quality diagnostic solutions that are as versatile as the people who depend on them. With its proprietary hardware and software solutions developed by C2Sense, Halo is designed to be used with commercially available colorimetric or fluorescent rapid diagnostic tests in support of healthcare, wellness, and safety. Halo is highly accurate, assay manufacturer agnostic, digitally connected, and easy-to-use. For more information on Halo, visit www.HaloReader.com.

About C2Sense
C2Sense is a technology company with a product portfolio that delivers solutions for rapid diagnostics, authentication, and product viability assurance to reduce loss and harm for all people.
